South Bay Salt Pond Restoration  
Project

## Need for the South bay Odor Stakeholder Group

- Serve as a forum for municipal leaders, private industry, state and local regulators and community members to collaborate in identifying and resolving odor issues in the South Bay Area and communicate this information to the Public.
- Use Community Leaders to share information locally.
- Considering Facebook page, Twitter, specialized App and a website for updates and routine communication needs.

- Statement describing the reason the South Bay Odor Stakeholder Group exists
- Help guide decisions about priorities, actions, and responsibilities
- Industry participants agree to develop Odor Impact Minimization Plans for their respective sites
- Future testing to include odor species specification (profiling)
- Enhanced communication with Regulators on operational changes, Improvement Plans and BMPs

- Next steps
  - Approve mission statement
  - Formalize launch and make public announcement
- Determine short term goals that the coalition can work towards
  - Prepare for algae bloom die-off and recovery
    - Predicting the impacts
    - Modeling the impacts
    - Other source testing
    - Public education
  - Communication between reciprocating Industries
  - Invite other stakeholders

- Next steps
  - Approve mission statement
  - Formalize launch and make public announcement
