## Discussion

Dan North	<p>1. Call to Order and Introductions</p> <p>Call to order at 11:33 am. Dan made a reminder on meeting etiquette</p>
Dan North SBOSG members	<p>2. Overview of Meeting Minutes from April 15, 2021</p> <p>See changes</p>
Jerry Bovee, Chia Ling Kong, Michael Geiss, Urvish Metha	<p>3. BAAQMD Odor Study Presentation</p> <p>Jerry: Introduce Contractors. Scott and Bart – Jacobs. Peter and Steve, Montrose. Hold questions till the end of the presentations.</p> <p>Scott and Bart from Jacobs. Refer to slide deck presentation. Steve and Pete from Montrose. Refer to slide deck presentation.</p> <p>Questions: Chia Ling Kong: Can we have a copy of the presentation? Jacobs, it was mentioned that data from natural sources is missing from presentation and it should be included. It is a source of contention.</p> <p>Michael Geiss: On the Montrose first presentation slide 15, it says concentration levels spiking by Chevron gas station at McCarthy. Can the station be contributing factor for that large spike? Scott: We see the spikes near fueling stations and highway. The aldehydes do not come from the stations. Unique to landfill. Benzene levels high when going down highway.</p> <p>Urvish: how soon does the presentation become available to public? How info can be made available to public? Jerry: the work is ongoing, we have one more sampling event in late summer. Couldn't last summer due to fires. Want to see if there's a difference in</p>

	waste streams and meteorological conditions. Final results in fall or early winter. On schedule to present to BAAQMD board this fall. We're equally as committed to getting info out to all stakeholders as soon as possible to start addressing issues.
Dan North	4. Update on MRF Facility Modifications Dan: Still in process on finishing of permitting of MRF. In discussions with air district on difference in applications. Questions on how two applications interact, close to being done.
Dan North	5. Round-Table Update  Deferred to October 21 meeting.
Dan North	6. Suggested Next Meeting Date  Next scheduled meeting October 21, 2021 via Microsoft Teams
Dan North	7. Adjourn  Adjourn 1:09

### Next Meeting

Thursday, October 21, 2021, 11:30am to 1:00 p.m., Microsoft Teams
